

FAROUK ALMSOUTY

TEST SPECIALIST

PROFILE

I am a dedicated software tester with several years of hands-on experience in functional and regression testing. Since 2018, I have worked across different industries such as telecommunications, energy, and IT services. My focus is on creating and executing test cases, managing defects, and documenting results to ensure reliable outcomes. I am familiar with tools like Tosca Testsuite, Jira, and Confluence, and I bring particular strength in manual testing. With an analytical approach and a structured testing mindset, I aim to contribute to the successful delivery of high-quality projects.
